

# Geologic Log For Site WASH BVD-3

NWIS Site ID: 452719122465801

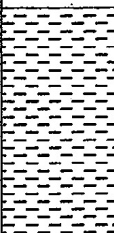

OWRD Log ID: WASH BVD-3

Logged by: M. H. Beeson

Well location: 01.00S/01.00W-26BCC01

Depth drilled, in feet below land surface: 100

Land surface altitude, in feet above Nation Geodetic Vertical Datum of 1929: 220

SUBSURFACE PROFILE				
Depth	Symbol	Description	Elevation	Remarks
0		Ground Surface	230	
		<i>Silt</i>		
			190	
		<b>Sand Hollow or Ginkgo flow</b> (Frenchman Springs Member) Weathered coarse grained basalt gray to yellow and red, diktytaxitic, phytic (few phenos)	182	XRF Analysis - 45'
		<b>Ginkgo - flow top</b> Oxidized, fine grained, vesicular flow top, large phenocrysts	168	
		<b>Ginkgo flow</b> (Frenchman Springs Member) Medium grained, 'dirty' looking, some oxidation, diktytaxitic (becomes coarser with depth) (not drilled to base of flow)		XRF Analysis - 80'
100			130	
		End of Borehole		
200
