

School of the Environment 2015 Spring Seminar Series

PSU/USGS/OSU Joint Seminar

Tuesdays, 4-5 PM, Cramer Hall 53

PSU Contact: Max Rudolph (Geology)

maxwell.rudolph@pdx.edu

March 31 Roy Haggerty (OSU)

“Willamette Water 2100: Anticipating Water Scarcity and Informing an Integrative Water System Response in the Pacific Northwest”

April 7 Julia Jones (OSU)

Hydrologic responses to climate change: considering geographic context and alternative hypotheses

April 14 Gordon Grant (OSU/USFS)

“Where’s Water?: Integrating geology with hydrology to improve predictions of future streamflows in the western US”

April 21 Kevan Moffett (WSU Vancouver)

“Flood-induced ecohydrological patterns and processes in coastal lowlands”

April 28 Alex Sifford (Sifford Energy Services)

Title TBA

May 5 Reed Maxwell (Colorado School of Mines)

“Connections in the hydrologic cycle: how anthropogenic stresses impact feedbacks, sensitivity and sustainability”

May 12 Jennie Rice (PNNL)

“The Platform for Regional Integrated Modeling and Analysis (PRIMA) -- Exploring the Climate-Energy-Water-Land Nexus.”

May 19 David Hill (OSU)

Title TBA

May 26 Rainer Helmig - Darcy Lecturer

“Evaluating the Competitive Use of the Subsurface: The Influence of Energy Storage and Production in Groundwater”

June 2 Noah Molotch (CU Boulder)

Title TBA
