

Base compiled from U.S. Geological Survey digital data, includes:
Lidar details (USGS or DOGAMI?), 1-meter resolution (along valley floor)
U.S. Geological Survey digital data, 10-meter resolution (outside valley floor)
Projection: Universal Transverse Mercator projection, Zone 10N, 1983 North American Datum

GEOMORPHIC SURFACES OF THE SPRAGUE AND LOWER SYCAN RIVERS, OREGON

By
Jim E. O'Connor, Patricia F. McDowell, Pollyanna Lind, and Christine G. Rasmussen
2012

Geologic linework was digitized at a scale of 1:3,000 but the accuracy of the contacts varies depending on location and geologic unit.
